DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-19 and 21 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 3, 4, 5, 8-13, 15-18, and 21 of U.S. Patent No. 6,665,095 B2. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are drawn to a method for forming shallow trench isolation structures by forming a hard mask on a substrate having a cell region and a periphery region, whereas the present claims broadly encompasses a method of forming shallow trench isolation structures comprising forming a (any type) mask on a substrate having a cell region and a periphery region.

Response to Arguments

3. Applicant's arguments filed 8/3/2006 have been fully considered but they are not persuasive. Applicants' amendments of claims 1, 3-8, 19, and 21, which recites forming a --mask--, has overcome the rejection of claims 1-19 and 21 under 35 U.S.C. 101 statutory-type double patenting rejection. However, (Currently Amended) Claims 1, 3-8, 19, and 21, which recites forming a --mask--, has overcome the rejection of claims 1-19 and 21 under 35 U.S.C. 101 statutory-type double patenting rejection. However new ground(s) or rejection is made in view of but is unpersuasive .

Applicant's arguments with respect to claims 1-19 and 21 have been considered but are moot in view of the new ground(s) of rejection because although Applicant's amendments of claims 1, 3-8, 19, and 21, which recites forming a --mask--, has overcome the rejection of claims 1-19 and 21 under 35 U.S.C. 101 statutory-type double patenting rejection, (Currently Amended) Claims 1, 3-8, 19, and 21, which recites forming a --mask--, was not addressed in the previous Office Action.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1765

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
